Repairing Environmental Damage Naturally

Earth Food BioChar Filters

- ☞ Removes excess phosphate and nutrients from the lakes and streams to help stop the algal blooms!
- ☞ Allows these valuable resources to be reused to enrich gardens and fields!
- ☞ Binds nutrients from the water through the Cation Exchange properties of the Earth Food BioChar!
- ☞ Holds more than 5x its weight in water!
- ☞ 1 Tbsp = 400m² surface area!
- ☞ EPA approved for being used in waterways!
- ☞ Totally organic!
