

Volunteers Needed to Help Clean Up Silver Lake Now!

Anyone with a dock or boat lift on Silver Lake is needed to place **BioChar Filters** this Summer

The **Silver Lake Improvement Board (SLIB)** is looking for volunteer dock or boat lift owners on Silver Lake to place **BioChar Filters** on their docks and boat lifts to help clean up our lake. These **BioChar Filters** will help remove Nitrogen and Phosphates as well as other algae causing impurities. The **SLIB** is providing 600 filters free of charge this Summer and your help is needed! Up to two (2) **BioChar Filters** can be placed on each 10' of dock and up to two (2) **BioChar Filters** can be placed on each boat lift. We need **BioChar Filters** distributed all along the inhabited shore of Silver Lake, from the Dunes end of North Shore Drive to the Silver Creek outlet in Sandy Woods subdivision, so please get involved. If you have a dock and/or lift we need your help now!

BioChar Filters Distribution – 6/10/23

The filters are **free** to all volunteer dock and lift owners while supplies last and will only be distributed Saturday June 10th from 9:00 AM until 12:00 PM at the Golden Township Park at Silver Lake Sand Dunes, 8453 Silver Lake Road. (Placement instructions and all mounting materials will be provided.)

Please do your part to help improve Silver Lake!

Brought to you by the Silver Lake Improvement Board
